

In the Claims

Kindly rewrite claim 14 as follows:

- Sub. F1 > 14. (Twice Amended) A reclosable package comprising:  
a first wall and a second wall opposite said first wall;  
a zipper strip for selectively opening and closing said package, said zipper strip comprising a male interlocking profile extending along an internal surface of said first wall and a female interlocking profile extending along an internal surface of said second wall;  
said male interlocking profile having a male interlocking member and a male web integral therewith;  
said female interlocking profile having a female interlocking member and a female web integral therewith, said male interlocking member being engageable within said female interlocking member to join said male and female interlocking profiles together;  
wherein one of said male and female webs is wider than the other of said male and female webs in at least one of two directions from said male and female interlocking members, the greater width of the wider of said male and female webs being at least one flange extending widthwise beyond the other of said male and female webs;  
wherein said at least one flange of one interlocking profile is sealed only to one of said package walls, said seal being at least a first seal area spaced apart from said interlocking members on a first side of said interlocking members; and  
wherein the other interlocking profile is sealed to the other package wall only at a second seal area spaced apart from said interlocking members and separated from said first seal area by said interlocking profiles along the length of said zipper strip, said second seal area being on said first side of said interlocking members.
